# END TO END ATM SOLUTION

At Prosegur we offer the best solution to outsource everything related to managing your ATM network.

Why have several companies attending your ATM when a single provider can do all of the tasks and create synergies that in the end improve your bottom line? You choose the location, we take care of the rest.

## REPLENISHMENT

- Video recorded replenishment process.
- ATM cassette swap, bag swap or add cash.

## BALANCING

- Daily balance ATM stock levels against reported withdrawals.
- Identify and manage discrepancies within a replenishment cycle.

## INSTALLATION AND OWNERSHIP

- Site preparation, anchoring, staging, branding and image maintenance.
- Financing and renting options for all major brands.
- Installation of electronic security and risk prevention systems.

## FORECASTING AND MONITORING

- Optimising cash needs maximizing ATM availability.
- Tracking and automatically dispatching events and incidents reducing overall downtime.
- ATM alarm monitoring and video surveillance with an agreed rapid response.

## REMOTE, FIRST AND SECOND LEVEL MAINTENANCE

- XFS agent for remote resetting and accurate fault detection.
- First Time Fix and Intelligent diagnostics: the right part for the right job.
- Spare parts, refurbishment and logistics.

## ORDER PREPARATION

- Picking and packing ATM cassettes or bags.
- Secured tracking of every order.
