The annual accounts of Prosegur Compañía de Seguridad, S.A. are the responsibility of the directors of the company, and have been prepared in accordance with General Accounting Plan endorsed by Spain.

The directors are responsible for the completeness and objectivity of the annual accounts, including the estimates and judgements included therein. They fulfil their responsibility mainly by establishing and maintaining accounting systems and other regulations, supporting them adequately using internal accounting controls. These controls have been designed to provide reasonable assurance that the Company's assets are protected, that transactions are performed in accordance with the authorisations and regulations laid down by management and that accounting records are reliable for the purposes of drawing up the annual accounts. The automatic correction and control mechanisms are also a relevant part of the control environment, insofar as corrective action is taken when weaknesses are observed. Nevertheless, an effective internal control system, irrespective of how perfect its design may be, has inherent limitations, including the possibility of circumventing or invalidating controls, and can therefore provide only reasonable assurance in relation with preparation of the annual accounts and the protection of assets. However, the effectiveness of internal control systems may vary over time due to changing conditions.

The Company evaluated its internal control system at 31 December 2018. Based on this evaluation, the directors believe that existing internal accounting controls provide reasonable assurance that the Company's assets are protected, that transactions are performed in accordance with the authorisations laid down by management, and that the financial records are reliable for the purposes of drawing up the annual accounts.

Independent auditors are appointed by the shareholders at their annual general meeting to audit the annual accounts, in accordance with the technical standards governing the audit profession. Their report, with an unqualified opinion, is attached separately. Their audit and the work performed by the Company's internal services include a review of internal accounting controls and selective testing of the transactions. The Company's management teams hold regular meetings with the independent auditors and with the internal services in order to review matters pertaining to financial reporting, internal accounting controls and other relevant audit-related issues.
